MOONRAT KILLER

EXECUTIVE SUMMARY

MoonKat (\$MKAT) aka Moonrat Killer is a community driven project built on Binance Smart Chain #BSC. MoonKat brings the most disruptive approach to BSC ecosystem: A community based project which ensures that holders of \$MKAT are entitled to receive BNB through the community pool system.

After a long week of hunting Moonrats, MoonKat celebrates its victory by rewarding \$MKAT token holders with some BNB into their wallet. You don't have to do anything, just hold \$MKAT in your wallet.

KEY FEATURES

● COMMUNITY BUILT

We locked the 40% of the total supply on Pancake Swap and threw away the keys! The remaining 40% was burned to Binance,. The Moonkat owns 5% of all tokens which is clifed for six (6) months. We did this to avoid the situation where team members dump tokens as they deem fit. For the first 6 moonths everyone has to buy on the open market.

The burned tokens can easily be tracked from our website.

● AUTOMATIC LIQUIDITY POOL

4% of every transaction contributes toward automatically generating further liquidity on Pancake Swap. Benefiting long term for Moonkat (\$MKAT) holders the most!

● EARN \$BNB REWARD

4% of every transaction is taken and re-distributed to Moonkat holders in \$BNB

● RFI STATIC REWARDS

2% of every transaction is taken and re-distributed to all \$MKAT holders. The burn address is also a holder thus each transaction helps deflate the circulating supply.

● SAFE & SECURE

All initial liquidity provided has been locked and the contract ownership has been renounced, leaving the contract in full trust of the MoonKat community.

● ANTI PUMP-DUMP-EXIT WHALES

Transactions (sell/buy) that trade more than 0.05% of the total supply will be charged. Whales who make a transfer (between 2 wallets) that is larger than 0.05% of the total supply will be charged for 2.5 BNB.

TOKEN ECONOMICS

TOTAL NAME
MOONKAT

TOTAL SUPPLY
1 Trillion

SUMMARY

TOTAL SUPPLY:

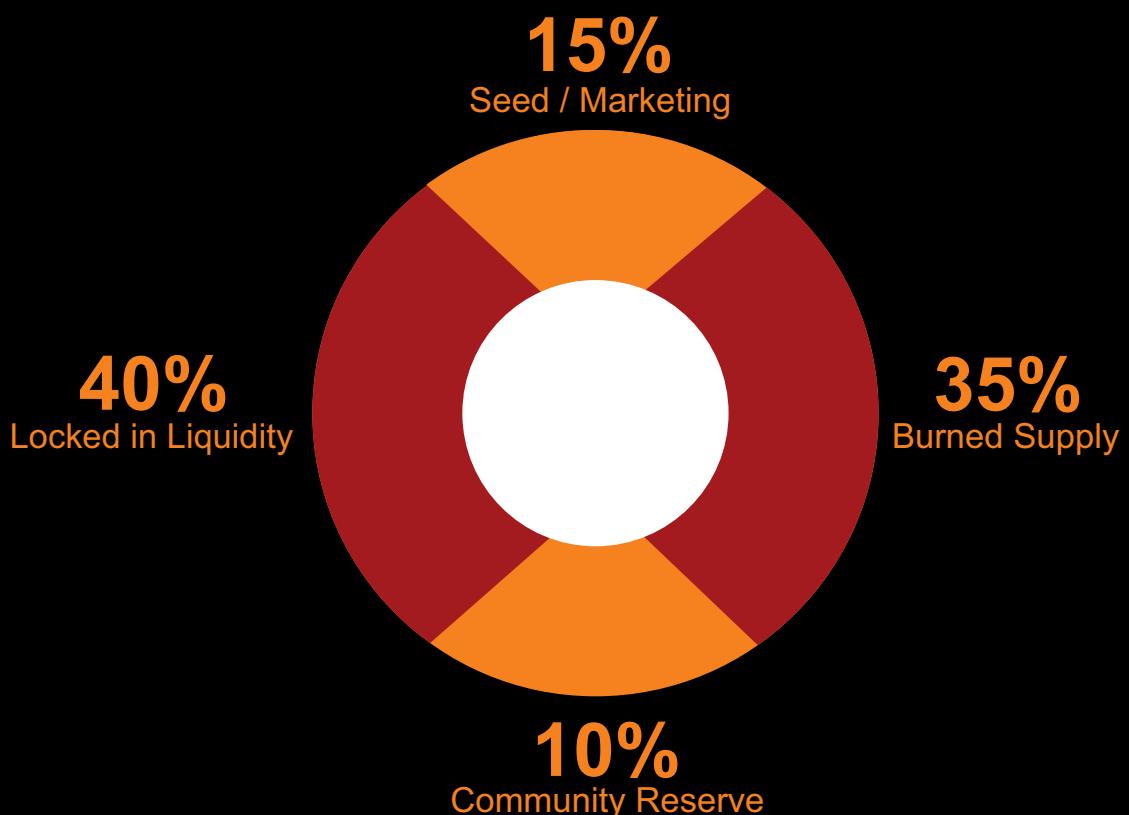

1 Trillion **\$MKAT**

- 35% Burned Supply
- 40% Locked in Liquidity
- 15% Seed / Marketing
- 10% Community Reserve

Token Name: **\$MKAT**

Total Supply:

1,000,000,000,000

HOW TO EARN BNB

4% of every transaction is taken and re-distributed to all \$MKAT holders in \$BNB.

You will have to stake for a specific duration called cycle (1 week) to collect your BNB reward. You can collect the amount of the BNB based on the ratio of \$MKAT you hold/the total BNB pool.

For example, you hold 0.5% of \$MKAT, you can withdraw 0.5% of the BNB reward pool.

CAUTION: if you choose to unstake before the end of your cycle, you won't be able to claim any \$BNB. You have to wait for seven (7) days in full to receive your \$BNB reward. There will be a countdown timer for \$BNB rewards in each cycle.

COLLECT BNB TAX

As a community-driven project and would love to promote equality.

If you collect more than 2 BNB, 20% of it will be used to buy back \$MKAT at the market price and burn them immediately. This feature helps deflate the supply and increase the price of \$MKAT for long-term \$MKAT holders.

MOONKAT NFTS

Our superb use case enables all kitty lovers to mint unique NFTS for their pets, print and wear on their cats. These Cards can be further traded on the platform. More details will be released before the official launch of our NFT platform.

THE KITTY FOUNDATION

We are not blind to the harsh treatments given to kitties worldwide, especially physically deformed kitties, we believe every kitty is unique in their own way. Your funds will go to the different feline charities world wide.
